Here's the edited version to send up. Thanks.

- In late December, PADEP informed EPA that, due to the numerous comments received on the Beneficial Use General Permit, the Agency received approval to extend the permit for one year to address the comments received. PA will continue the existing practice of forwarding requests for placement of PCB containing materials to EPA for review and approval.
- Court-filings related to the lawsuit filed by Hazelton Creek Properties asserting that EPA's issuance of the Notices of Warning for the improper use of PCB materials was a final Agency action was extended. The Court will post a revised filing schedule on February 19, 2019.

**Importance:** High

Hello there,

My apologies for the late request and fast turnaround. Please do submit only the hottest issues which you believe RA Servidio should raise to PADEP Sec. McDonnell. **FYI:** The PADEP call is scheduled for the first Monday of every month. As always, RA Servidio would like to have the hot issues in advance of the call. **The call is scheduled for February 4, 2018.**

Thank you!
